

MATCHY ROOM · FREE

Soft Sky

Free Name Tags

A complete set, given away whole — not a sample trimmed out of something paid.

What's inside

- **8 name tags** (3.25" × 2.05") on one page — **all five Soft Sky colors**, for desks, hooks, book boxes and cubbies
- **The same page again as outlines** — an ink-saver sheet for a first-week draft, or for letting students color their own
- **US Letter and A4**, laid out natively for each — identical physical size on both
- **A cut line around every tag**, set 4 mm outside the artwork so a wobble never touches the design
- **How to print, terms and credits** — the whole thing, not a sample

One theme. A whole room.

hello

Meet the makers

Matchy Room makes print-ready decor that matches — one palette, one set of shapes, a whole room that looks like it belongs together.

Every set is **created with a teacher**: Lauren has taught in a US public school for 18 years, holds a Bachelor's degree in Elementary Education, and is still in the classroom. She decides what a set has to include, then reviews it as an experienced classroom teacher before it goes out — sizes, wording, and whether it survives a real week with real children.

We build the files: measured print sizes, cut lines that tolerate real scissors, and the same physical size on US Letter and A4.

"One theme. A whole room."

Lauren · Grades 2-5 · public school, United States

How to print & cut

Print at 100%. In the print dialog choose *Actual size* (or 100%), never *Fit to page* — that one setting is the difference between a tag that is 3.25" wide and a tag that is 4–6% short of it. Card stock (65–80 lb) survives a school year on a desk; plain paper is fine for a first week.

Two papers, one size. This file comes as *US Letter* and *A4*. They are laid out separately so the tag is the same physical size in both — you never scale anything.

Cut. Follow the dashed line around each tag. It sits 4 mm outside the design, so an ordinary wobble never touches the artwork, and no gray shows on the finished tag. Laminate them if they need to survive a class of hands.

Save ink. The page after the color one is the same eight tags drawn as outlines only — a draft sheet for the first week, or a coloring job for the children themselves.

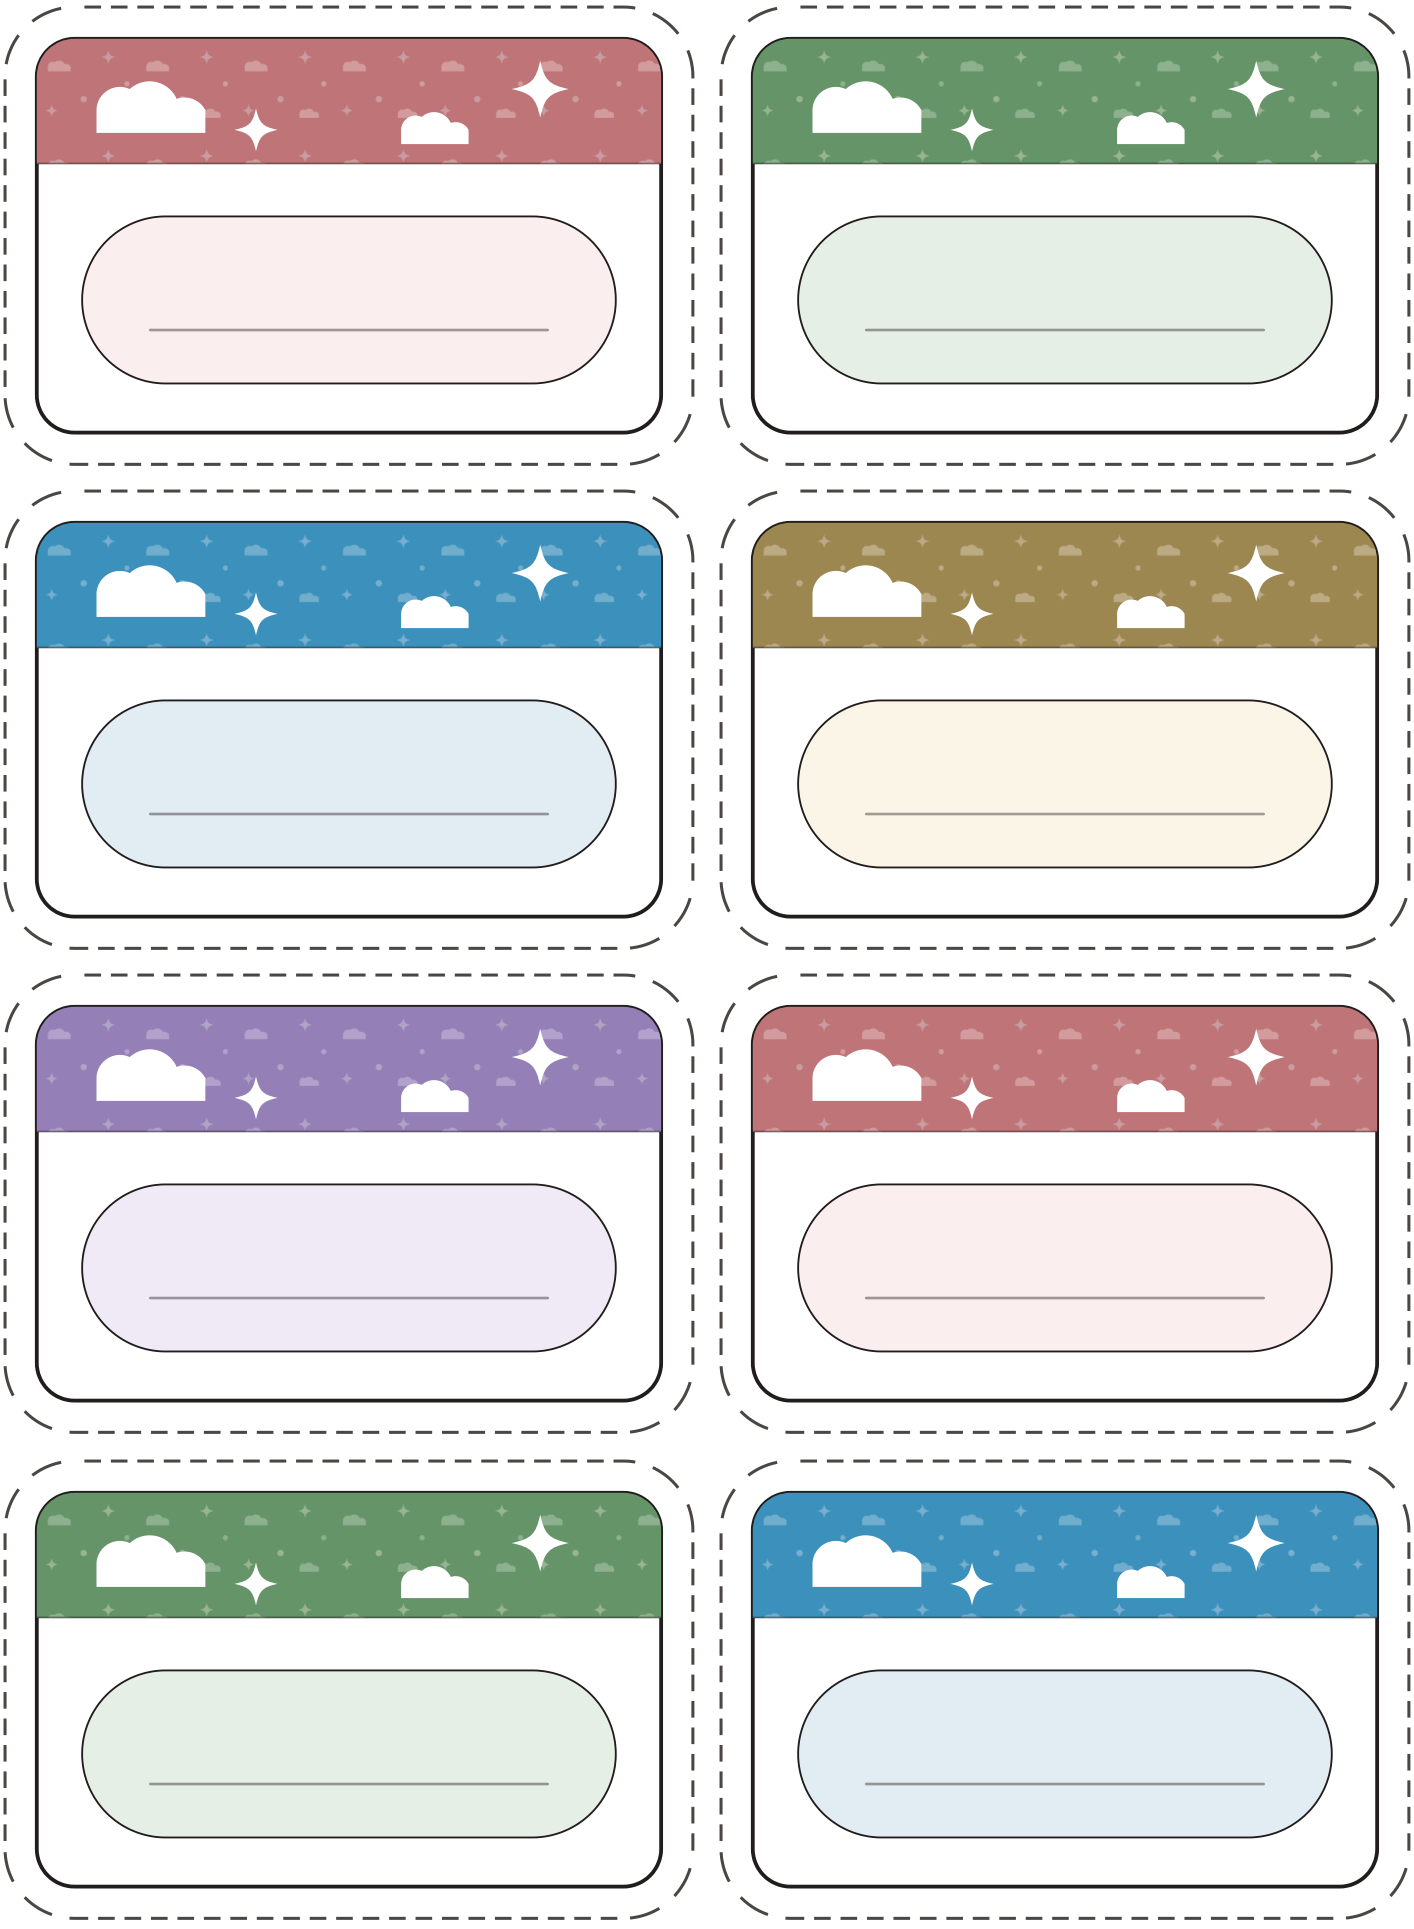

A whole class. Eight tags a page, all five Soft Sky colors mixed: print the page three times and a class of 24 is covered.

Sizes. Name tag 3.25" × 2.05" (83 × 52 mm) · name line ruled, ready to write on.

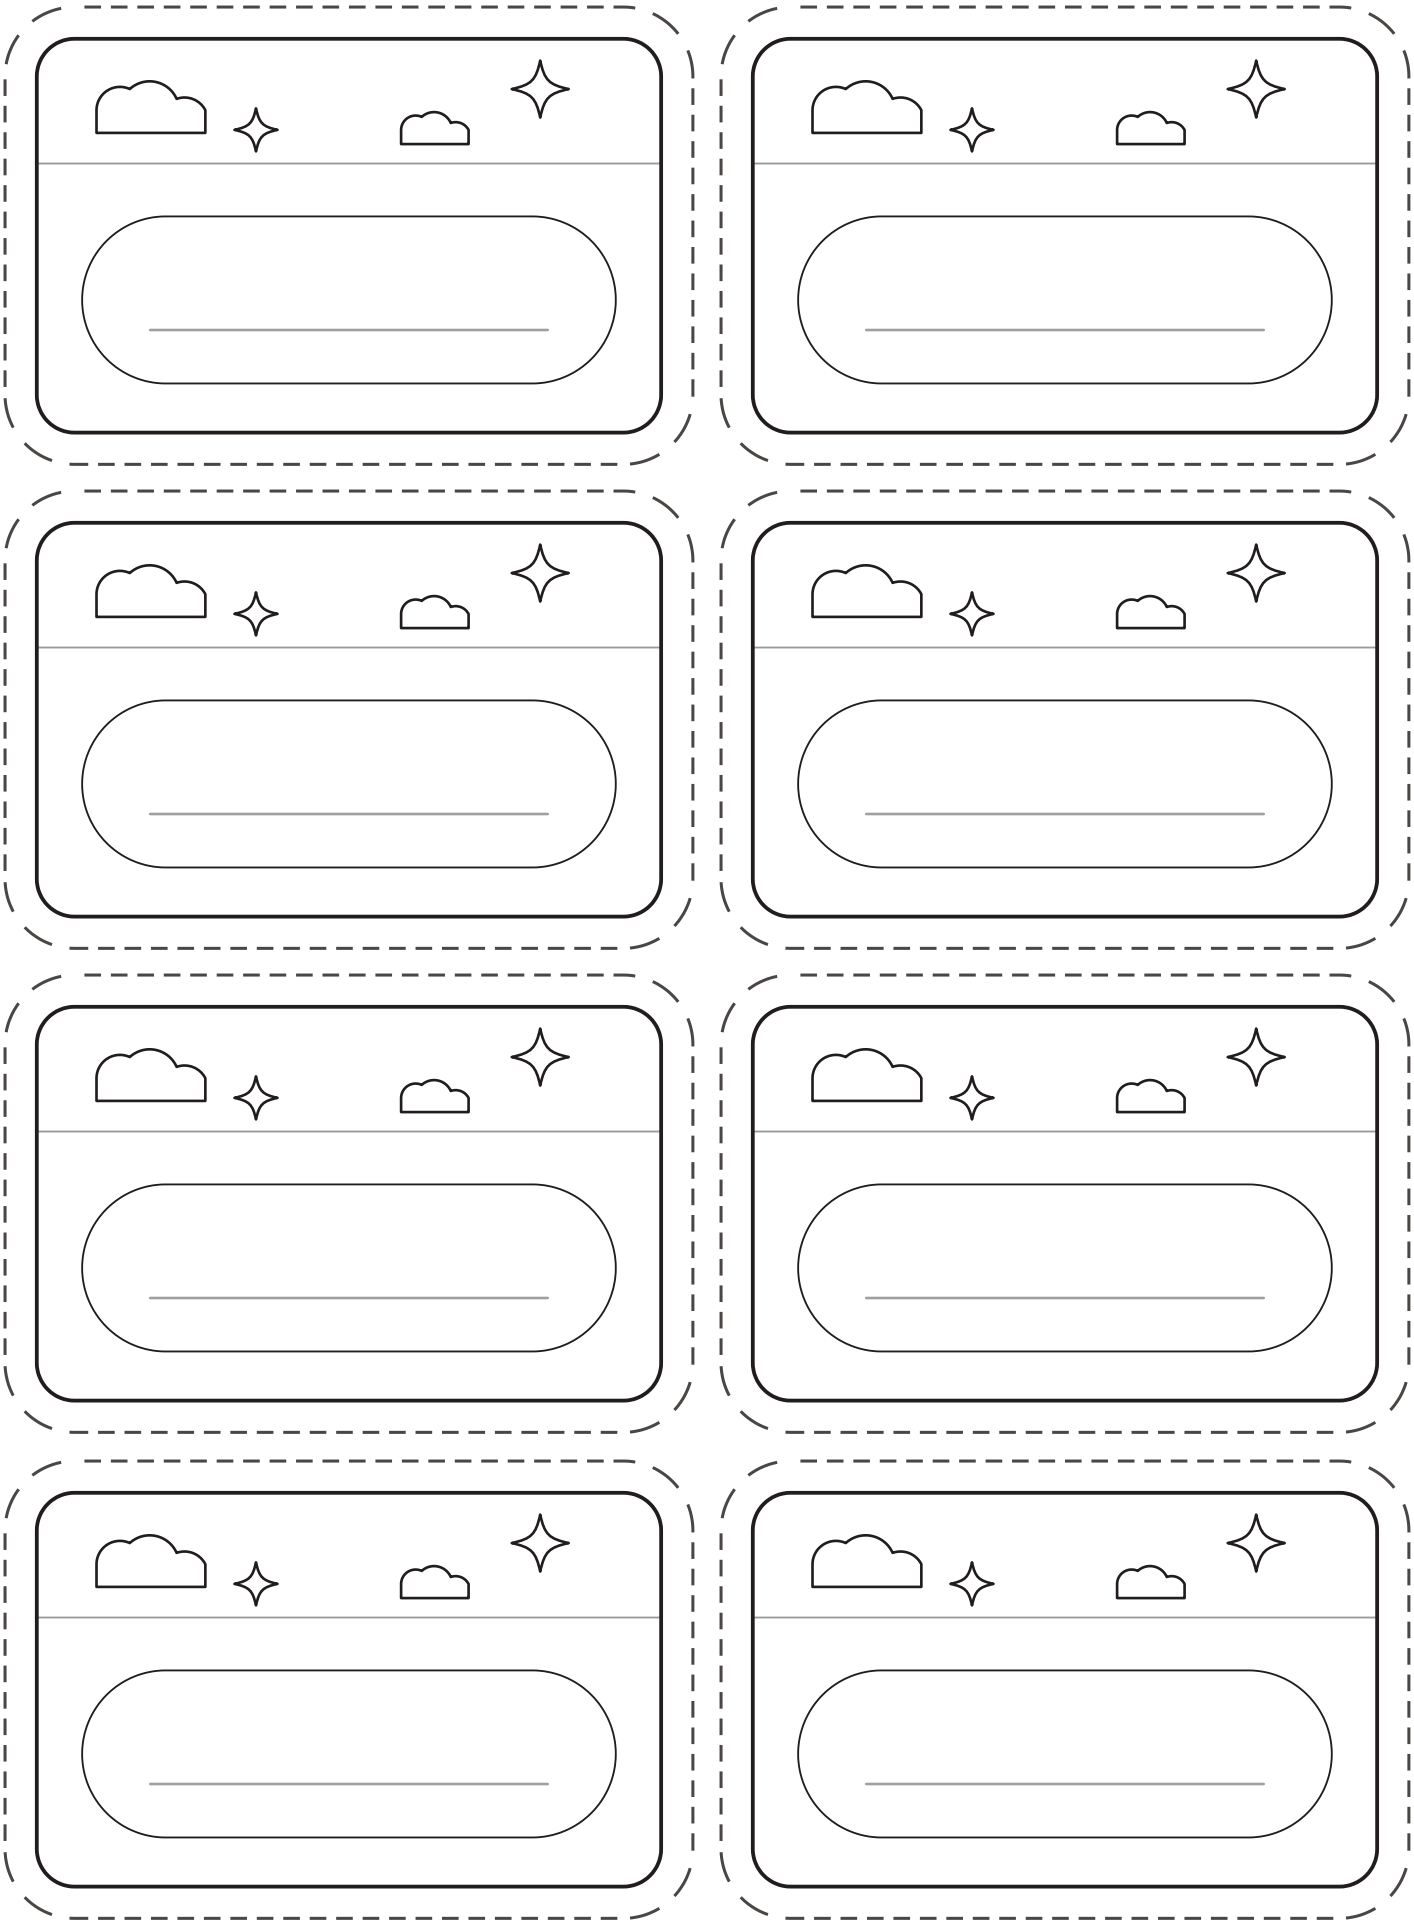

Print at 100% / "Actual size" — never "Fit to page". That one setting is what keeps every piece the size it says it is.

Matchy Room

All five Soft Sky colors on one page — print it three times and a class of 24 is covered

Free for your own classroom — print it as often as you like. Please don't resell it or pass the file around. · One theme. A whole room.

What comes next in Soft Sky

These tags are one piece of **Soft Sky** — one of the collections where every piece is drawn from the same five colors, the same shapes and the same outline weight, so a wall built out of them looks decided rather than collected.

The paid Soft Sky sets add desk plates with an A–Z strip and a number line, one full page of tags in *each* of the five colors (so a table group can share a color), mini labels for book boxes, an ink-saver version of every page, and **editable PowerPoint files** with each name box already filled in — you click and type your own class list.

Around them sit bulletin board letters, a classroom jobs display, a door kit and posters — same palette, same outline, same room.

See the whole collection in our TPT store.
Every set is built the same way this free one was — measured sizes, real cut lines, and a teacher's review before it ships.

Matchy Room

the rules

Terms of use

This set is free, and it stays free. There is nothing to buy here and no expiry on it.

You may print it and use it in your own classroom, including home-school; print fresh copies every year; let your students color the outline page; and share photos of it in use with credit to Matchy Room.

You may not resell it, hand the file to colleagues or a grade level, post it on a file-sharing or resource site, include it in anything you sell, or claim the artwork as your own. Free to use is not the same as free to redistribute.

Sharing it is welcome — send people to **matchyroom.com/freebies** and they get the current files, both paper sizes, straight from us.

Our promise. Every pattern, shape and color here is original Matchy Room artwork — no third-party clipart. Design work is AI-assisted and then finished, checked and refined by us. Sizing and cut-line specs are matched to professionally printed reference material.

In one line: print it, use it in your own classroom, keep it for as long as you teach — just send other teachers to the page rather than the file.

Matchy Room

thank you

Credits

Thank you for printing this. Everything in it is ours to give you, and the pieces we did not draw ourselves are named here.

- Body type and every name line: **Poppins** (SIL Open Font License 1.1)
- Display lettering: **Fredoka** (SIL Open Font License 1.1)
- Headings: **Quicksand** (SIL Open Font License 1.1)
- Every shape, pattern, frame and motif on these tags: original Matchy Room artwork

The typefaces are used under their own open licenses, which permit both commercial use and embedding in a document like this one. Nothing in this file is stock clipart.

Something not right, or a tag that will not print the size it says? Tell us and we will fix it — hello@matchyroom.com or matchyroom.com.
